Savannah, GA

The April 2008 launch of Darren Gaudry's [i]'My Internet Business'[/i] has been compared by experts to the launches of Microsoft and Google. Internet marketers, stay at home moms and entrepreneurs across the globe are now tapping into the My Internet Business training and marketing system to [b]work at home and earn money online. [/b]

Today we heard from Rob Hunter, Co-Leader of the top-earning My Internet Business Mentors 4 U team, who explained the three key steps that he takes to ensure that new members are able to earn money online right away.

â€œIt's critical that new associates in MyInternetBusiness have the ability to recoup their investment cost and [b]make profits their first month, [/b]â€• Mr. Hunter began. â€œTo ensure their success, I am setting up, managing and PAYING FOR a professional marketing campaign for all new members.â€•

Most people who want to work from home do not know how to successfully market online, and have difficulty making sales of their own. So when they join a business opportunity, it can take many months or even years before a new internet marketer ever makes any money.

[large]Rob Hunter has made it his goal to eliminate this learning curve by paying to market My Internet Business for his new members. [/large]

â€œThis marketing campaign will depend on the level that the new MyInternetBusiness associate joinsâ€•it may include [color=#ff0000]powerful, targeted email marketing, pay-per-click, or even a free position in our coveted magazine advertising Co-op, [/color]â€• he elaborated. â€œBut paid advertising is only a small part of the Marketing Plan that I teachâ€•not only will Mentors 4 U team members receive this paid advertising campaign, but they will ALSO be given exclusive training in our highly-sought Search Engine Optimization and Web 2.0 marketing classes.â€•

Rob Hunter and the Mentors 4 U teach search engine marketing and search engine optimization techniques that result in membersâ€™ websites appearing on the first page of

search engines such as Yahoo, Google, MSN, etc. Normally, such services cost between \$3000-\$6500, [i]but members of this mentoring team receive these lessons for free.[/i] This results not only in members being able to promote My Internet Business on the front page of Google, but also they will never need to hire expensive search engine marketing companies to promote their other websites.

â€œAnd that is one reason why so many internet marketers are joining us from other organizations, such as EDC Gold, Roadmap to Riches, Abunza, and others,â€• added Rob Hunter. â€œThey join MyInternetBusiness to learn how to successfully market their original businessâ€•but many end up just focusing on promoting MyInternetBusiness instead because of the compensation plan. I mean, [b]who DOESNâ€™T want to earn \$2000 per sale, and have professionals closing your sales for you?â€•[/b]

When asked about the third key step to ensure the success of his affiliates, Mr. Hunter replied, â€œNew members receive instant access to our exclusive â€œCopy and Pasteâ€™ Marke Blueprint. Literally, if you can copy and paste, you can earn \$2000 over and over againâ€•this private back office includes a massive vault of ad copy and sales letters that I use myself with great success. It also shows MyInternetBusiness affiliates exactly where to place these ads, how to track the results, and has a step-by-step â€œDaily Method of Operationâ€™ page which shows exactly what you need to be working on everyday, and for how long.â€•

Between a paid-for turnkey marketing campaign, exclusive training in search engine marketing secrets, and this â€œcopy and pasteâ€™ resource site, it is easy to see why so many aspiring entrepreneurs are joining with Rob Hunter and the Mentors 4 U team. Working from home can be challenging, but having personal training and guidance from top income earners makes it much easier to earn money online.
